Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Schoeffler pointed out that Liang fails to disclosed the invention as claimed in the proposed amendment and Kawashima marks a page if there is an error, which differs from the claimed invention which confirms that the document is sent. Examiner pointed out col. 7 (fig. 6) of Kawashima which discloses marking regardless of error. Mr. Schoeffler pointed out that the proposed amended claims read over Kawashima in view of Liang (confirming that the document is sent w/ultraviolet marking). Examiner will reconsider the references upon Applicant's filing of response.
